Yenilikçi “TETHERED” kapaklar, hem şişenin hem de kapağın birlikte geri dönüştürülmesini sağlayarak geri dönüşüm oranlarını artırır, kapakların çöpe dönüşmesini önleyerek çevremizin temiz kalmasına yardımcı olur.

Temmuz 2024'te yürürlüğe giren tek kullanımlık pet içecek ambalajlarının kapaklarının ambalaja bağlı kalması şartıyla kullanımına izin verilmesini zorunlu kılan Avrupa Birliği Tek Kullanımlık Plastik Direktifi (SUPD), Döngüsel Ekonomi Eylem Planı'nın önemli maddelerinden biridir.

Papix Plastik Ambalaj atıkları azaltmaya yönelik küresel çabalarla uyumlu, daha sürdürülebilir bir ambalajlama yaklaşımını desteklemek amacıyla ülkemizde patentli tasarımıyla 38mm “TETHERED” kapak üretimi yapan ilk sanayi kuruluşudur.

*Innovative “TETHERED” caps make it possible to recycle both the bottle and the cap together, helping to increase recycling rates and prevent caps from becoming waste and keeping our environment cleaner.*

*The Single-Use Plastics Directive (SUPD), which came into effect in July 2024, requires that single-use PET beverage packaging can only be used if the caps remain attached to the bottle. This regulation is one of the key elements of the European Union's Circular Economy Action Plan.*

*In line with global efforts to reduce plastic packaging waste and promote more sustainable packaging solutions, Papix Plastik has become the first industrial company in our country to produce 38mm “TETHERED” caps with its patented, unique design.*
